

REGISTER TO COLLECT HONEY SAMPLES FOR THE AUSTRALIAN HONEY LIBRARY PROJECT.

B-QUAL is the Program Manager of the Commonwealth funded project “ Delivering Quality Assured Australian Honey Bee Products”.

We are now seeking registrations from B-QUAL members and the general beekeeping industry to volunteer to supply samples of Australian Honey for database inclusion and testing.

All samples and information requested will be maintained under strict privacy protocols and anonymity.

The honey testing and recording is not a judgment of your honey or beekeeping practices, but solely to gain a record of Australian honey

Ideally we are looking for dominant flavoured honey such as but not limited to : Yellow Box, Spotted Gum, Stringy Bark, Blue Gum etc.

Shortly after registering you will receive a self-addressed pre-paid post envelope containing collection details to log on to a collection app, 400ml jar (or how many you request, 1 per each variety) and labels.

To register simple email to bqualdatabase@ausqual.com.au

1. State your name and trading name. (your B-QUAL Number only if a BQUAL member)
2. Telephone contact
3. Preferred email address
4. Postal address
5. How many jars you require.

Once your honey is tested you will receive a copy of the test results.

Should you have further queries about the project please use bqualdatabase@ausqual.com.au.
